

Cisco Unified Attendant Console Standard

Quick Reference Guide

This sheet gives a quick overview of how to use the Cisco Unified Attendant Console Standard interface. For full details, see the application help.

Starting Cisco Unified Attendant Console Standard

To start Cisco Unified Attendant Console Standard:

- 1 Double-click the desktop icon.
- 2 If required, enter an operator extension number.
- 3 If you want Cisco Unified Attendant Console Standard to remember the operator extension number to use automatically next time it is started, select **Remember Extension**.
- 4 Click **Sign In**.

To sign out from your current attendant console session, in the main menu, click **Sign Out**. The application continues to run and any synchronization currently in progress continues. To resume using the application, repeat step 2 to step 4.

Opening the Online Help

To open the application Help, press **F1**.

Line States and Directory Presence Status

The phone line state icons appear in the Call Control and Directory panes and represent the state of operator and extensions. The presence status icons are displayed in directories.

Operator Line State	
Icon	State
	On hook
	Off hook
	Do not disturb
	Forwarded
	Out of service

Participant Line State	
Icon	State
	Ringing
	Off hook
	On hold

Directory Line State	
Icon	State
	Ringing
	On hook
	Off hook
	Do not disturb
	Forwarded
	Forwarded to voicemail

Directory Presence Status	
Icon	Status
	Available
	Away, invisible or on the phone
	Do not disturb
	Unknown or off-line

Using the Mouse to Apply Commonly Used Call Controls

This section describes how to make and control calls using the mouse. There are sometimes several ways of doing these things; the easiest or quickest is described here. You can also use the main menu or keyboard shortcuts for many actions. For detailed instructions on all the methods of call control, see the application Help.
