The DPDK uses the Open Source BSD-3-Clause license for the core libraries and drivers. The kernel components are naturally GPL-2.0 licensed.

Including big blocks of License headers in all files blows up the source code with mostly redundant information. An additional problem is that even the same licenses are referred to by a number of slightly varying text blocks (full, abbreviated, different indentation, line wrapping and/or white space, with obsolete address information, ...) which makes validation and automatic processing a nightmare.

To make this easier, DPDK uses a single line reference to Unique License Identifiers in source files as defined by the Linux Foundation's SPDX project (<https://spdx.org/>).

Adding license information in this fashion, rather than adding full license

text, can be more efficient for developers; decreases errors; and improves automated detection of licenses. The current set of valid, predefined SPDX identifiers is set forth on the SPDX License List at <https://spdx.org/licenses/>.

DPDK uses first line of the file to be SPDX tag. In case of `*#!*` scripts, SPDX tag can be placed in 2nd line of the file.

For example, to label a file as subject to the BSD-3-Clause license, the following text would be used:

SPDX-License-Identifier: BSD-3-Clause

To label a file as GPL-2.0 (e.g., for code that runs in the kernel), the following text would be used:

SPDX-License-Identifier: GPL-2.0

To label a file as dual-licensed with BSD-3-Clause and GPL-2.0 (e.g., for code that is shared between the kernel and userspace), the following text would be used:

SPDX-License-Identifier: (BSD-3-Clause OR GPL-2.0)

To label a file as dual-licensed with BSD-3-Clause and LGPL-2.1 (e.g., for code that is shared between the kernel and userspace), the following text would be used:

SPDX-License-Identifier: (BSD-3-Clause OR LGPL-2.1)

Any new file contributions in DPDK shall adhere to the above scheme. It is also being recommended to replace the existing license text in the code with SPDX-License-Identifiers.

Any exception to the DPDK IP policies shall be approved by DPDK Tech Board and DPDK Governing Board. Steps for any exception approval:

1. Mention the appropriate license identifier form SPDX. If the license is not listed in SPDX Licenses. It is the submitters responsibility to get it first listed.
2. Get the required approval from the DPDK Technical Board. Technical Board may advise the author to check alternate means first. If no other alternative are found and the merit of the contributions are important for DPDK's mission, it may decide on such exception with two-thirds vote of the members.
3. Technical Board then approach Governing Board for such limited approval for the given contribution only.

Any approvals shall be documented in "Licenses/exceptions.txt" with record dates.
